KIDS COUNT data provided by Children's Trust

- Since inception Newberry County First Steps has leveraged $1,025,697 from sources outside state government. That’s $.36 for every dollar received.
- Through our intensive home visitation program for at-risk families, we exposed as many as four generations to spending quality time together through family sessions/screening during FY16.
- We served over 565 children in our library-based literacy program, giving children over 4500 books.
- Total training attendance for our quality child care training program was over 500!

Newberry First Steps
Patricia H. Caldwell
Executive Director

Newberry County First Steps targets children under the age of six. First Steps is an initiative designed to achieve results through partnerships at state and local levels, among public and private entities. County-level partnerships - with their unique ability to identify local needs, resources, and collaborative opportunities – are designed to efficiently focus program efforts and reach children where they live. Since inception, Newberry County First Steps has leveraged $1,025,697 from sources outside of state government. That’s 36 cents for every state dollar.

The Community
There has been a strong collaboration with the school district of Newberry, the library, child care centers, faith based other local non-profits, Newberry public housing, local government and other county partnerships to maximize our resources and ensure that all families know where to go to receive assistance for their families.

Each year our programs show evidence of improvement: nationally recognized program, Parent as Teachers, Library-based program (children’s literacy), Countdown to Kindergarten (CTK) - where we have reached children throughout the county - and child care Quality Enhancement/Training. All centers have quality programs and one center has an “A+” rating. In addition, our new Early Head Start site serves 16 families and children 0-2 years old. The First Steps 4K program in our county serves 32 children.

Moving Forward
The Partnership will continue to work with our partners as we focus on making sure that all children are healthy and ready to experience the success needed to create the motivation and engagement that sustains learning.

Parents as Teachers Library-Based Program
Countdown to Kindergarten Child Care Quality Enhancement
Child Care Training

State Programs
BabyNet First Steps 4k
Healthy Start

We begin with a focus on providing a healthy start to life. This includes prenatal and post-partum services for both mother and baby. In 2007, First Steps collaborated with key philanthropic and agency partners to bring Nurse-Family Partnership to SC having a significant impact on reducing premature births and Medicaid costs.

Quality Childcare

Quality childcare starts with quality childcare providers. Our quality enhancement and training strategies lead to improved teacher-student interaction, which research shows has a significant impact on a child’s development and success in school.

Family Strengthening

Our home visitation strategies, such as Parents as Teachers, Parent-Child Home and Early Steps to School Success, are helping parents understand their responsibilities to care for and be positive models for their children. As a result of First Steps’ intervention and parenting support, 66% of clients initially assessed at “low” levels of parenting have achieved moderate or high levels of parenting skill.

Early Education

Private-public partnerships through First Steps 4K have led to significant cost efficiencies in the delivery of publicly funded 4K. One recent analysis suggests First Steps is achieving comparable results, without the need for costly capital construction, for 80 cents on the dollar.

Early Intervention

According to recent federal evaluations, outcomes for clients participating in BabyNet early intervention programs are above national averages. BabyNet matches the special needs of infants and toddlers who have disabilities and/or developmental delays with customized, community-based resources.

School Transition

Each of the corresponding blocks of services leads ultimately to the goal of transitioning children successfully to school. Programs like Countdown to Kindergarten and From Day One to Grade One are ultimately preparing children for school success.

Based on the needs of our community Newberry County First Steps focuses its investments in FAMILY STRENGTHENING, EARLY EDUCATION, SCHOOL TRANSITION, AND QUALITY CHILD CARE.
Parents as Teachers

Parents play a critical role in their child’s development.

Program Description
Parents as Teachers (PAT) is an evidence-based home visiting program designed to build strong communities, thriving families and children who are healthy, safe and ready to succeed. PAT services include:

1. **Personal Visits** at least twice monthly
2. **Monthly Group Connections** with other PAT families
3. **Screenings and Assessments** to identify developmental concerns
4. **Connections to Outside Resources** that families may need to succeed

100% ... live in poverty

... had not earned high school diploma or GED...some were not literate in their native language

75% ...served were teen parents

This year, our Parents as Teachers program:

✓ Averaged 2.16 home visits per family per month
✓ Identified and addressed 10 potential developmental delays
✓ Improved literacy skills interactive book activities during home visits (760 books) and 340 book distributions during special events and Parent Café (parent/child group meetings)
✓ Made 13 connections for families to services such as Family Literacy, Food Banks, Housing Authority, Mental Health, and BabyNet

“Reading aloud with children is known to be the single most important activity for building the knowledge and skills they will eventually require for learning to read.”
Marilyn Jager Adams

Program Description
The Newberry County First Steps Library-Based Program is designed to provide literacy activities for 3-4-year-olds enrolled in a certified preschool program. These programs include child care centers, private preschools, faith-based preschools, and public schools. We are especially targeting children who have been identified as at-risk.

One main goal is to instill in children a love of reading and of books. Another goal is to place in the homes of these children quality children’s literature to encourage reading and together time for the children and adults in the home.

Each class receives visits twice a month by the Outreach Librarian. Each child receives eight (8) books to take home to add to his or her personal library. Children are taught the proper care and handling of books. Through the reading sessions every two weeks, teachers are trained in storytelling techniques to use in their own reading times. Books are also given to the classroom to build up their classroom library.

In order to thrive, children need nurturing, responsive relationships and a supportive learning environment, both within and outside the home.

Program Description

The quality of care received by young children is crucial to their healthy development and school readiness. Child care providers strive to provide high quality care, but may lack the resources that are commonly available to publicly-funded early childhood programs, such as educational materials, on-site professional development, and other support.

First Steps’ Child Care Quality Enhancement (QE) is intended to produce measurable improvements in the quality of care provided to young children. Participating child care providers must serve a high percentage of at-risk children, and are selected through a competitive process that requires a strong level of commitment to the QE process.

Program Components

1. On-site Technical Assistance (TA) at least twice monthly
2. Equipment and materials funding
3. Integration with locally available training, provided by First Steps and other partners
4. Workforce development
5. Coordination with community partners
6. Pre/post assessments of the classroom environment and teacher-child interaction, using nationally-recognized observational tools for infant/toddler and preschool settings (ITERS, ECERS, FCCERS)

This year, our Quality Enhancement program:

☑ Improved quality in most areas in the 2 classrooms working with First Steps on pre/post Environment Rating Scale assessments.

☑ Provided 94 hours of technical assistance to child care providers

☑ Provided $2,090 in materials grants to participating child care providers

Those who care for young children need high-quality, accessible, and affordable professional development.

Program Description
High-quality child care hinges on high-quality professional development that meets the needs of the local child care workforce.

First Steps-sponsored training is certified through the SC Center for Child Care Career Development and includes topics in the areas of nutrition, health and safety, curriculum, child guidance, professional development and program administration. Best practices in training include not only the training itself, but follow-up in the classroom.

Dawn Graham, Kids Unlimited of Prosperity, Inc.
Bringing parents and teachers together as partners sets the foundation for success in school.

**Program Description**

Countdown to Kindergarten (CTK) is a summer home visitation model connecting rising kindergartners and their families with their future teachers. The program is designed:

- to forge strong and lasting home-school relationships,
- to acquaint children and families with the state and classroom expectations to increase the likelihood of school success,
- to increase parent involvement in the early grades (particularly in hard-to-reach communities), when children’s learning is foundational for life success; and
- to increase public awareness of the importance of school readiness and provide ways for parents and communities to impact children’s early school success.

Countdown to Kindergarten integrates all of the following:

**Home Visitation.** Teachers make six visits over the summer to the homes of participating students and families. Children and families are introduced to actual materials used in kindergarten and are given a Kindergarten Transition Toolkit to keep.

**Learning Celebration.** The last visit is a “field trip” to the school where the child will attend class in the fall.

**Public Awareness.** Throughout the summer, First Steps releases tips to media to help parents and caregivers get children ready for kindergarten.

*CTK program data is for June-August 2015, whereas CTK fiscal data includes expenditures from July 1, 2015 through June 30, 2016.

---

**This year, our Countdown to Kindergarten program:**

- Increased the amount of time parents spent reading to children by; 100% children placed in Home Visitor’s classroom.
- Increased public awareness of the importance of school readiness and ways for parents & communities to impact children’s early school success.
- According to kindergarten teachers, CTK parents were more involved than other parents in their child’s education as measured by student attendance, parent/teacher conference attendance and volunteering.

Since inception, Newberry County First Steps has leveraged $1,025,697 from sources outside of state government. That’s 36 cents for every state dollar.
Community Outreach

Parents as Teachers Program
A family with a 49-month old child enrolled in our program and our Bright Beginnings Child Development Center. He had been born with congenital heart problems and had resulting surgeries. His mother was understandably very concerned and protective, but was more comfortable with his being in a small class. His pre-screening showed some deficiencies in communication, fine motor, problem solving, and social skills. The child progressively learned to follow the class routines, play with the other students, and participate in class activities. His mother was surprised at his gains in maturity and independence, and as a result became a full partner in his developmental and educational goals. She and his father become more active in the parenting group sessions. His mother was our guest speaker at our Spring Council meeting to share her families’ journey with our program this year. His post-screenings showed improvements in all areas, but it was decided to have him evaluated by School District Special Services, in hopes of his qualifying for services over the summer. His mother plans to bring him back to our center for the 2016-17 school year, as well as participate in the 2016 summer activities.

Early Head Start Program
Mary Green, Director Newberry Child Development Center

We are enjoying having the Early Head Start Program at Newberry Child Development Center. It has not only benefited our facility through giving low income families a chance to have an early start on education, but also has enabled NCDC to help build Newberry’s community brighter one child at a time. The program has allowed us to create lasting partnerships with parents and their children. The program also provides great resources for our parents and their families. We are privileged to have this program in our facility. Thank you!

Children’s Literacy

Library-Based Program
Newberry’s “Library Lady”, Mrs. Janie Eargle, is not a stranger to the preschool crowd in Newberry County. When a child runs up to her in a store, she always introduces herself to the parents, who are thrilled to meet the “Library Lady” that their children talk about. One parent commented, “The First Steps Library Outreach Program provides really great books for my child. The program encourages her to read more and makes her want to learn more and more. She pretends to read to her baby dolls by putting them in a group circle, and she “reads” to them. She wants me to read to her every time she receives a new book.” Another parent said, “My child loves when the outreach librarian comes to read to her class. She brings home the book and we read it that same day! We have so many books from this program and we read them often.” This program not only encourages the child to read, but it provides a special time for families to share reading together!

Newberry Housing Authority
Margie Suber

It has given me great privilege to witness the children’s enjoyment of reading books that were donated by Mrs. Pat Caldwell and the First Steps Program. These books were brought into our office at the Julian E Grant Homes (The Newberry Housing Authority) for the children to enjoy. It is a joy and pleasure to see parents reading to their children and to see children coming into the office just to pick up a book to read. The children loved the books so much that all the books disappeared from our office. That is great, because now they enjoy reading them at home! Newberry Housing values the partnership with Newberry County First Steps as we work together to meet the needs of our families.

Thank you to our partners!

Community Collaborates to Increase Public Awareness of First Steps’ Work
Beth Bozard, Newberry County Board Chair

As the public becomes more aware of the importance of Early Childhood Development, our agency’s role in ensuring that all students begin school ready to succeed continues to gain support in the public and private sectors. Research has shown and continues to show the value of what we do. However, as with any agency, finances remain one of our most limiting factors. Newberry County First Steps has collaborated with the School District of Newberry County, the Hal Kohn Library, local child care centers, local businesses and elected officials to make the most efficient and effective use of our funds.

Investing in Our Children’s Future

I am very proud to be a part of Newberry County First Steps to School Readiness Board. We have a group of creative and dedicated individuals who are committed to our mission and who work well together to accomplish our goals. I am looking forward to the coming year as we continue to invest in our children’s future.

The Goals of First Steps

(1) provide parents with access to the support they might seek and want to strengthen their families and to promote the optimal development of their preschool children;

(2) increase comprehensive services so children have reduced risk for major physical, developmental, and learning problems;

(3) promote high-quality preschool programs that provide a healthy environment that will promote normal growth and development;

(4) provide services so all children receive the protection, nutrition, and health care needed to thrive in the early years of life so they arrive at school ready to succeed; and

(5) mobilize communities to focus efforts on providing enhanced services to support families and their young children so as to enable every child to reach school healthy and ready to succeed.
