Georgetown County

Annual Report
2016-17

OUR VISION:
Every South Carolina child will arrive at Kindergarten ready to succeed.
Georgetown County First Steps
Carol Daly
Executive Director

It is with great pleasure that I present the Georgetown County First Steps Annual report.

Georgetown First Steps shares with other agencies and citizens a common concern for and a commitment to the welfare and future success of our youngest children. As part of a statewide early childhood initiative, Georgetown First Steps serves as a local leader in developing a comprehensive, collaborative approach to serve the needs of all children birth to five in Georgetown County.

In our constant pursuit to fund services that support unmet needs in our preschool community we are proud of the following innovative programs:

- Host partnership to the State Early Head Start initiative sponsoring 3 Early Head Start Centers with 40 children and families
- Employing two Family Advocates providing service delivery to parents in group meetings and home visitations
- Implementation of a pilot 3K program in strong collaboration with the Georgetown School District and private providers. This is presently the only public/private 3K in the state

In closing, thank you for your continued support of our programs. I cannot think of a more important or consequential goal than securing the future educational opportunities for our youngest citizens.

Best,

Georgetown County First Steps

Since inception Georgetown County First Steps has leveraged $3,198,211.67 from sources outside state government. That's $.66 for every dollar received.

Support and guidance were provided to 50 families in our EHS Parenting Program.

Childcare professionals received 148 hours of technical assistance for early care best practices.

Improved parenting practices through 11 Group Connections Parent Meetings and home visitations to select families.

Total Children Served in FY17: 261

By The Numbers
Each of the six color blocks of the First Steps logo represents a core area of service, outlining our comprehensive strategy to prepare children for long-term school success.

With measurable outcomes across each of its six school readiness strategy areas, First Steps is getting results.

**Healthy Start**
We begin with a focus on providing a healthy start to life. This includes prenatal and post-partum services for both mother and baby. In 2007, First Steps collaborated with key philanthropic and agency partners to bring Nurse-Family Partnership to SC having a significant impact on reducing premature births and Medicaid costs.

**Family Strengthening**
Our home visitation strategies, such as Parents as Teachers, Parent-Child Home and Early Steps to School Success, are helping parents understand their responsibilities to care for and be positive models for their children. As a result of First Steps’ intervention and parenting support, 66% of clients initially assessed at “low” levels of parenting have achieved moderate or high levels of parenting skill.

**Early Intervention**
Children’s school readiness depends on their healthy growth and development. First Steps helps identify potential delays early through developmental screenings and referring children to BabyNet and other early intervention resources.

**Quality Childcare**
Quality childcare starts with quality childcare providers. Our quality enhancement and training strategies lead to improved teacher-student interaction, which research shows has a significant impact on a child’s development and success in school.

**Early Education**
Private-public partnerships through First Steps 4K have led to significant cost efficiencies in the delivery of publicly funded 4K. One recent analysis suggests First Steps is achieving comparable results, without the need for costly capital construction, for 80 cents on the dollar. Early Head Start expands quality early learning and family support to infants and toddlers.

**School Transition**
Each of the corresponding blocks of services leads ultimately to the goal of transitioning children successfully to school. Programs like Countdown to Kindergarten are ultimately preparing children for school success.

**What We Do**

Based on the needs of our community, Georgetown County First focuses its investments in Early Intervention, Quality Childcare, Early Education and School Transition.
Program Description

The quality of care received by young children is crucial to their healthy development and school readiness. Child care providers strive to provide high quality care, but may lack the resources that are commonly available to publicly-funded early childhood programs, such as educational materials, on-site professional development, and other support.

First Steps’ Child Care Quality Enhancement (QE) is intended to produce measurable improvements in the quality of care provided to young children. Participating child care providers must serve a high percentage of at-risk children, and are selected through a competitive process that requires a strong level of commitment to the QE process.

Program Components

1. On-site Technical Assistance (TA) at least twice monthly
2. Equipment and materials funding
3. Integration with locally available training, provided by First Steps and other partners (SECA)
4. Workforce Development
5. Coordination with community partners
6. Pre/post assessments of the classroom environment and teacher-child interaction, using nationally-recognized observational tools for infant/toddler and preschool settings (ITERS ECERS FCCERS)

This year, our Quality Enhancement program:

Provided 148 hours of technical assistance to child care providers
Provide $8,320.84 in materials grants to participating child care providers
Funded scholarships for 11 children within participating child care providers
Distributed 250 books to Georgetown County Children

THANK YOU TO OUR PARTNERS!

- U.S. Department of Education
- Georgetown County School District
- Georgetown Housing Authority
- WellCare Health Plans, Inc.
- Ellis Foundation
- Cornerstone Support Services
Too many families in Georgetown County cannot afford quality care for their children.

**Program Description**

Access to quality child care is essential for children while away from their primary caregivers. Yet, of those families income-eligible for child care assistance in South Carolina, only a small fraction receive it due to lack of funds. In the absence of nurturing and consistently available family, friends or neighbors, parents are faced with few - or no – affordable care options.

Georgetown County First Steps serves families in greatest need. Among our scholarship families:

- 32% live in poverty
- 15.1% didn’t graduate from high school
- 65% were teen parents
- 23% had developmental delays

In addition to regular monitoring of child care providers that receive First Steps scholarships, First Steps conducts at least one developmental screening each year with scholarship children and connects families to needed services within the community.

**This year, our Scholarship program:**

- Provided 11 children with scholarship assistance so their parents could work or attend school
- Identified and addressed 5 potential developmental delays among scholarship children
- Provided 12 hours of training for scholarship parents in topics such as nutrition, emergency response, discipline and money management

Children involved in high-quality preschool are more likely to have better academic outcomes.

Program Description

GCFS demographic data shows success in reaching out to poor and more diverse segments of the population in order to provide services to those families and children who have the most urgent need for EHS services.

The most needful have been identified through detailed screenings and have been carefully administered according to a weighted scale during registration periods. Observations include such indicators as limited literacy, limited income, parental stress, and special needs such as behavioral/developmental concerns, physical/substance abuse, low birth weight, recent migration, and lack of reading materials in the home.

State and Local Funds for Maximum Community Impact!

Georgetown County First Steps works hard to leverage funds beyond the state dollars provided. We ran a couple of fundraisers last year through the support of Craft Fair at Ace Hardware, book baskets in local stores and a special donation from a local foundation, The Cliff and Carolyn Foundation.

WEEK OF THE YOUNG CHILD!

In the spring, we held different activities for “THE WEEK OF THE YOUNG CHILD”! Tuesday was Taco Tuesday; made Taco’s with the children as they explored the taste and touch of food. Wednesday we took a class trip to Ripley’s Aquarium in Myrtle Beach to explore the world of the sea; and on Artsy Thursday we made caterpillar’s showing different shapes.

Taco Tuesday! WEEK OF THE YOUNG CHILD”. Children learning about different types of food. Each year we try to find different types of food to introduce and expose the children to. While engaged in this activity the children learned the colors and shapes of the ingredients as they made their own tacos.

The Goals of First Steps

(1) provide parents with access to the support they might seek and want to strengthen their families and to promote the optimal development of their preschool children;

(2) increase comprehensive services so children have reduced risk for major physical, developmental, and learning problems;

(3) promote high-quality preschool programs that provide a healthy environment that will promote normal growth and development;

(4) provide services so all children receive the protection, nutrition, and health care needed to thrive in the early years of life so they arrive at school ready to succeed; and

(5) mobilize communities to focus efforts on providing enhanced services to support families and their young children so as to enable every child to reach school healthy and ready to succeed.

-- Section 59-152-30

Interested parents with Medicaid-eligible children who live in eligible school districts can contact any participating provider to complete an application for free, full-day 3K. To view a list of participating First Steps 3K providers please call:

Georgetown County First Steps: 843-520-1830

EARLY HEAD START – CHILD CARE PARTNERSHIP

Low income families with children 0-36 months, and families with infants or toddlers with special needs, are invited to apply for this year-round, comprehensive program. Available in the following counties: Allendale, Anderson, Bamberg, Berkeley, Dillon, Georgetown, Laurens, Lexington, Newberry, Orangeburg, Saluda and York, and coming soon to Fairfield and McCormick counties. To apply, visit:

http://scfirststeps.org/ehs/

[I CAN] is First Steps’ public awareness campaign for school readiness, in support of the state’s Profile of the Ready Kindergartener. Includes resources for parents, providers and communities to learn what they can do to support school readiness.
